Professional Experience

Home Health / Private Duty Nurse (CNA/LPN)

Home Healthcare Agency / Private Employer | June 2020 – Present

- Manage comprehensive care for 4-6 high-acuity patients weekly, including patients with diabetes, dementia, post-surgical needs, and chronic conditions, achieving 95% patient satisfaction rating
- Administer medications, injections, and IV therapy with zero medication errors for 3+ years while monitoring vital signs and reporting critical values promptly
- Developed and implemented individualized wound care protocols, reducing healing times by 30% compared to agency average for pressure ulcers and surgical wounds
- Assist with rehabilitation exercises and mobility training, helping 70% of patients achieve functional goals ahead of schedule

- Maintain meticulous electronic health records (EHR) with 100% HIPAA compliance, ensuring accurate documentation of care plans, interventions, and outcomes
- Educate patients and families on chronic disease management, post-surgical recovery, and medication adherence, reducing emergency calls by 25%
- Coordinate care with physicians, specialists, and family members, facilitating interdisciplinary communication to provide holistic treatment approaches

Certified Nursing Assistant (CNA) – Home Health

- *Previous Employer / Healthcare Facility | May 2017 – May 2020*
- Assisted with activities of daily living (ADLs) for 8 patients per week, including meal preparation, feeding, personal hygiene, and light housekeeping
- Monitored and documented vital signs (BP, temperature, pulse, SpO2, glucose levels), identifying five serious conditions requiring immediate intervention
- Provided companionship and emotional support, averaging 45 minutes of meaningful engagement per visit, improving patient mental wellbeing
- Assisted with transportation to medical appointments and community activities, maintaining perfect safety record
- Recognized as "Caregiver of the Month" for exceptional patient care and family communication
